

Geode in Cedar

Geode in Claro Walnut (Limited Edition)

Geodes in Charred Cedar

# GEODE COLLECTION

## SIDE TABLE/STOOL

Introducing the Geode Collection – a stunning series of one of a kind, hand-shaped sculptural pieces that infuse the natural warmth of wood into any space. Each piece is meticulously crafted to highlight the unique organic features and rich textures inherent in cedar, cypress, walnut, and oak.

The faceted design, reminiscent of natural stone geodes, speaks to a modern geometry, while the unique grain, cracks and fissures unique to each piece relates well in rustic aesthetics.

Used as a functional side table or stool, or simply as an objet d'art, the Geode fits seamlessly into any decor style, from rustic to contemporary.
