

ORGANIC

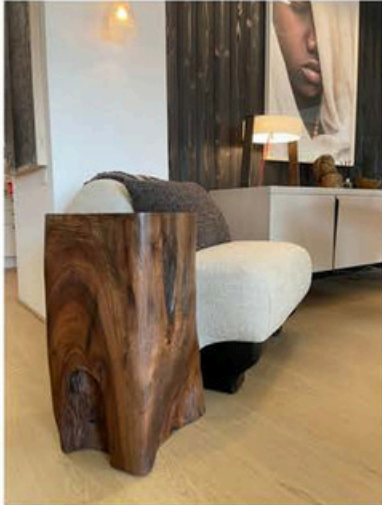

SIDE TABLE / STOOL

The Organic Side Table/Stool Limited Series is the perfect meeting of nature's artistry and refined craftsmanship. Each table in this series is a unique masterpiece, skillfully sculpted to highlight the distinct grain patterns and natural beauty inherent in each cut. These pieces are neither square nor round, but rather, every piece is shaped according to the organic flow of the grain in order to best feature the ebbs and flows of the tree's natural shape.

Every piece is carefully hand-shaped, respecting the natural contours and characteristics of the wood, resulting in a one-of-a-kind piece that tells its own story. The organic forms and rich textures blend seamlessly into any space, adding a touch of nature-inspired elegance and individuality.
